

Cognos, sometimes referred to as the Data Warehouse, is the LBNL Reporting tool.

### What about eSRA in the DataWarehouse?

- eSRA data is updated nightly to the Data Warehouse.
- This package of data contains summary level information about proposals and awards.
- Every data field in eSRA is not yet contained in the Data Warehouse.

### Where can I find the eSRA data in Cognos?

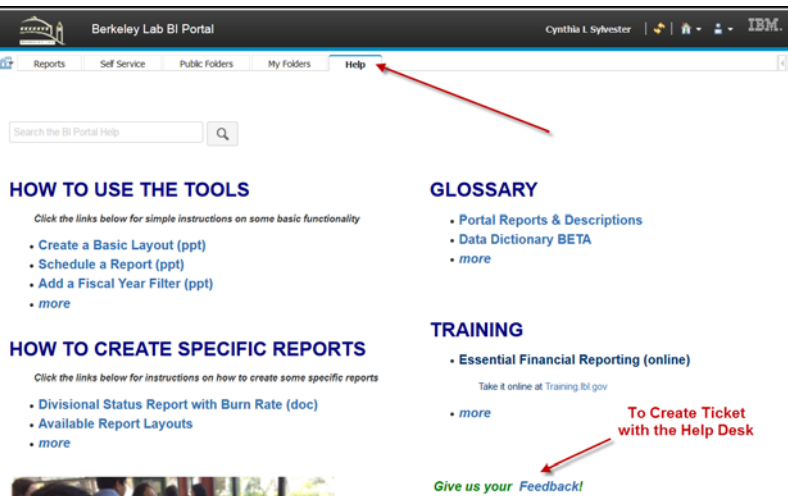

- You find eSRA data on the Self Service tab.
- The eSRA Self Service Query Studio is in beta release.
- There are currently two templates in the 'Divisional Templates' section that you can use to get started creating your own reports.
- The Self Service Query Studio is the place for you to create your own reports.

### What if I have questions about how to use Cognos?

- Refer to the Help tab in Cognos for information about how to use Cognos and Training documents.
- You can access the same help find help in the A-Z Index
  - C: Cognos Help & Training
  - R: Reporting Portal (Cognos) Help & Training

### What if I have problems using Cognos or my questions aren't answered by the training available?

- You can open a help ticket directly from the Cognos system on the help tab using 'Give us your Feedback'
- Submit a help request to [FSMHelp@lbl.gov](mailto:FSMHelp@lbl.gov) and indicate you are having problems with Cognos. The help ticket will be routed to the Cognos Help team.
- Please note: the eSRA Help desk does not assist with Cognos problems. The eSRA Help desk would re-route your help requests to the Cognos Team

### What is coming next for eSRA and Cognos?

- The eSRA team is developing a data dictionary for the eSRA Self Service module (ETA June)
- Cycle time reporting (ETA July)
- Adding additional fields to complete the summary package (ETA August)
- We are responding to input from end users
